PRIZM™ LENS TECHNOLOGY

Oakley Prizm™ lens technology has turned eyewear into vital equipment for sports. It all comes down to enhancing detail in the most precise ways to optimize your visual experience, and the result is game-changing performance.

We analyze the demands of each sport and environment to ensure each lens transmits the right wavelengths. That way, you can experience sharpened visual acuity that helps you see everything more clearly, and react more quickly. Beyond enhanced detail recognition that helps you spot what you need to see, Prizm Sport lenses improve your ability to see and track moving objects in your periphery. Whatever the sport, you'll have improved performance to help you compete with confidence.

PRIZM™ ROAD*

Engineered to help you see subtle changes in road texture and quickly spot hazards like rocks and potholes so you can perform with confidence.

PRIZM™ ROAD BLACK

Engineered to help you see subtle changes in road texture and quickly spot hazards like rocks and potholes so you can perform with confidence on bright, sunny days.

PRIZM™ ROAD JADE

Engineered to help you see subtle changes in road texture and quickly spot hazards like rocks and potholes so you can perform with confidence on bright, sunny days.

PRIZM™ TRAIL TORCH

Engineered to help you spot transitions and textures between types of dirt and distinguish obstacles in a variety of light conditions so you can ride with confidence.

PRIZM™ LOW LIGHT

Engineered to help optimize detail recognition in low light conditions and artificial light environments without causing a color shift in your vision.

PRIZM™ FIELD*

Engineered to enhance contrast and help you easily track the ball against the sky, grass and dirt.

PRIZM™ GOLF*

Engineered to help you spot transitions between the fairway, fringe, and rough and gauge distance with accuracy to help you read the course better.

PRIZM™ DARK GOLF

Engineered to help you spot transitions between the fairway, fringe, and rough and gauge distance with accuracy to help you read the course better in bright, sunny days.

PRIZM™ DEEP WATER

Engineered to help you see what's under the surface by boosting colors that water absorbs and cutting through glare.

PRIZM™ SHALLOW WATER

Engineered to help you identify structure and drop offs, and cut through glare in freshwater environments.

PRIZM™ SNOW

Engineered to help you see snow contours, bumps and textures in a variety of light and snow conditions.

PRIZM™ LENS TECHNOLOGY

Oakley Prizm™ lenses fine tune individual colors, enhancing detail for an optimized experience. With ordinary sunglass lenses, the world looks dull and flat, but Prizm lens technology makes everything look vivid and vibrant. It's a breakthrough that comes from decades of research in optics for professional athletes, and it helps you make the most of everything from sports to everyday life.

GREY BASE

*Also available in non-polarized

PRIZM™ BLACK POLARIZED*

PRIZM™ GREY POLARIZED*

PRIZM™ SAPPHIRE POLARIZED*

PRIZM™ JADE POLARIZED*

Some of our most popular lens colors are now available in Prizm. We chose our top sellers, including rich hues of Iridium® such as Black, Tungsten, Ruby, Sapphire, Jade and 24K. Customers who prefer a non-mirrored look can choose Prizm Grey or Prizm Bronze, which do not have Iridium coating. Each of these Prizm lens colors are available with HDPolarized™ technology to cut glare.

BRONZE BASE

*Also available in non-polarized

PRIZM™ BRONZE POLARIZED*

PRIZM™ TUNGSTEN POLARIZED*

PRIZM™ RUBY POLARIZED*

PRIZM™ 24K POLARIZED*

PRIZM™ ROSE GOLD POLARIZED*

SUN LENS TECHNOLOGY

OAKLEY HIGH DEFINITION OPTICS (HDO®)

A combination of technologies and patented innovations that give you clearer, sharper vision, HDO® virtually eliminates the distortion common in high-wrapped sunglasses.

- REFRACTIVE POWER. Conventional lenses can magnify images. HDO® precision gives less distorted vision across the entire field of view.
- ASTIGMATISM. Ordinary lenses can't focus all light waves in the part of your eye that does the seeing. With HDO®, you won't have the blur of inferior optics.
- PRISMATIC POWER. With regular lenses, objects aren't really where you see them. HDO® offers a truer visual image, and it helps ensure each eye has the same image so your brain won't have to work overtime.

IMPACT PROTECTION

We go to great lengths to ensure our sunglasses protect your eyes. The lens material and frame geometry provide protection against high velocity and high mass impact.

- High velocity testing: Impact resistance against light objects at high speeds.
- High mass testing: Impact resistance against heavy objects at low speeds.

102 MPH

100% UV PROTECTION

- Oakley Plutonite® filters out 100% of all UVA, UVB, UVC and harmful blue light up to 400nm.
- The lens material itself blocks UV, so you don't have to rely on a thin surface coating that can wear away or become scratched.
- Our optical technologies allow for lens curvature that improves protection at the top and sides of your eyes.
- All Oakley sun lenses and Oakley Authentic Prescription Lenses provide 100% UV Protection

OAKLEY HDPOLARIZED™

Oakley HDPolarized™ lenses block 99% of harsh glare and minimize eye strain. Our infusion molding process eliminates the glues, layering and distortion found in conventional polarized technology.

Other lenses are made up of multiple layers, attached with glue. Glue bonded layers diminish clarity and cause distortion.

One layer and no glue means the greatest possible clarity and least distortion. Look through less to see more.

OAKLEY: FUSED AT THE MOLECULAR LEVEL

VS.

COMPETITORS: GLUED LAYERS = DISTORTION

PHOTOCHROMIC

- Our photochromic lenses help you adapt to changing light conditions so you can always perform at your best.
- Your lenses won't be too dark when the sun pulls a disappearing act or too light when it knifes through the clouds.

LIGHT CONDITIONS

LENS ADAPTATIONS

OPTICAL LENS TECHNOLOGY

OAKLEY AUTHENTIC PRESCRIPTION LENSES

The Oakley Authentic Prescription Lens Program, including sun and optical styles, features Oakley's unparalleled optical innovations merged with leading technologies and features designed to meet, and exceed, the uncompromising demands of sport and everyday life. Only Oakley Authentic lenses are signed with the ellipse logo, an icon of uncompromising quality for proof of Oakley authenticity.

OAKLEY TRUE DIGITAL™ FREEFORM TECHNOLOGY

CORNERSTONE OF OAKLEY PRESCRIPTION OPTICS

– OTDI freeform technology delivers a more consistent power profile across the entire visible field of view

IMPROVED OPTICS AND INCREASED POWER CONTROL

- Wider power ranges with no frost in the lens periphery
- Minimizes oblique astigmatism for a wider field of view
- Faster adaptation & patient comfort

HIGH-WRAP SPORT FRAMES IN HIGH PRESCRIPTIONS

– This technology uses what we know about frame tilt, wrap, and vertex distance to optimize your doctor's prescription for your frame on your face.

SPORT-SPECIFIC SOLUTIONS

Best combination of materials, design and quality for optimal sport performance vision

OAKLEY SHIELDS WITH RX INSERTS

Using shield insert technology, the prescription is glazed on two separate lenses which are placed into the shield to provide corrected vision.

Available in the following Standard Lens Colors:

FRAME MATERIALS

O MATTER™

Oakley's injection molded thermoplastic O Matter™ frame material provides improved strength and flexibility over traditional acetate, and built to withstand from shifting or deforming over time.

C-5™

To produce the ultra-strong chassis of Oakley wire frames, five metallic compounds are fused into a single C-5™ alloy.

STAINLESS STEEL

The durability of an extremely high strength-to-weight ratio allows us to make stainless steel frames with comfortably thin architecture.

TITANIUM

An ultra-lightweight, virtually indestructible material used in fighter jets, titanium allows Oakley to produce some of the strongest, lightest and most comfortable Oakley frames.

NANO-MATTER™

Oakley's ultra-lightweight durable frame material allows for all-day comfort and resistance to the elements.

CARBON

With durability that comes from decades of research and development in sports innovation, this ultra-lightweight material provides superior comfort and flexibility.

ACETATE

Handmade layered acetate allows for a multitude of rich hues and colors, as well as visual textures, giving this frame material its high-quality look and feel.

ALUMINUM

The high strength-to-weight ratio of Oakley's aerospace-grade aluminum alloy enables the bold styling of sculptural designs in a durable and very lightweight frame construction.

NANOWIRE™

Comprised of incredibly sleek and ultra-lightweight titanium alloy, Oakley Nanowire™ creates sculptural contours without sacrificing comfort or flexibility. Shape-shifting Memory Metal flexes and springs back into place, providing an adaptable fit that borders zero gravity.

FRAME TECHNOLOGY

ADVANCER™ TECHNOLOGY

Oakley® Advancer technology is designed to instantly open airflow to help combat fogging and overheating. With a simple pull of a toggle, wearers are able to harness cooling airflow so they can focus on their performance and not the conditions around them. The Advancer is available in sport performance frames, such as Flight Jacket and Radar® EV Advancer, and a more streamlined lifestyle version is available in active frames such as Oakley Anorak and Rev Up.

THREE-POINT FIT

Oakley's Three-Point Fit ensures that each frame makes contact only at the bridge of the nose and behind the temples. This retains optics in perfect alignment, maintains a secure fit and eliminates the discomfort of ordinary frames that hook the ears with unbalanced pressure points.

UNOBTAINIUM®

First introduced on our sport performance products, Unobtainium® earsocks and nose pads provide increased comfort and performance. Increases grip with sweat.

SWITCHLOCK® TECHNOLOGY

Adapt and conquer with Oakley Switchlock® Technology. Oakley Switchlock® Technology's simple switch mechanism makes the process of lens changing quick and hassle-free.

TRUBRIDGE™ TECHNOLOGY

With our revolutionary frame fitting system, a perfect fit is easy, so you can choose whatever style you want and not worry about how it will feel. TruBridge™ technology adapts the frame to the width and depth of your nose bridge, so you never have to pass up a style you love. TruBridge technology creates an optimized fit with four different size O Matter™ nosepads.

TRUBRIDGE™ + UNOBTAINIUM®

A key solution to the issue of varying nose bridge widths and depths but with an improved fit, comfort and retention, this next generation of TruBridge technology creates an optimized fit with three different size no-slip Unobtainium nosepads.

NO-SNAG NOSEPADS

Oakley's patented, hassle-free and adjustable nosepads won't snag or pull on hair. Transitioning eyewear from the top of your head to face has never been easier.

HINGES

LATCH

The Latch hinge is an interior kick-up feature that lets you clip your glasses to your shirt, allowing you to safely stow your eyewear and move seamlessly through your day.

HOLLOWPOINT™

Inspired by hubless motorcycle wheels, the Hollowpoint™ hinge has a self-contained spring cam mechanism and internal piston, showing an elegantly minimalist design.

MONOSHOCK™

Flexibility, comfort and fit are combined through mechanical precision to create the refined aesthetic of this single tine hinge.

TWINSHOCK™

Inspired by pro-racing, the dual tine structure of the hinge is similar to leaf springs used for shock absorption, combining durability, flex and comfort.

009462 SUTRO S

A scaled down version of the popular Sutro sunglass, Sutro S redefines the look of traditional sports-performance eyewear. Inspired by the daily life of urban cyclists, the high-wrap shield creates a bold, versatile look, protects from the elements and enhances vision with Prizm™ Lens Technology, while inspiring athletes to move confidently and seamlessly through their day.

009343 M2 FRAME™ XL

The XL lens shape is the latest evolution of M2, and it takes performance even further with an enhanced vertical dimension. Even when your head is subtly tilted downward, things that matter will still be in your field of view and the slightly taller design also enhances performance in sports and activities where things above need careful attention.

009019 OAKLEY PLAZMA

The iconic Racing Jacket was the inspiration for Oakley Plazma, a lightweight dual lens sport frame designed to accommodate high prescriptions. The functional sport design with three-point architecture is designed to hold eyewear in precise optical alignment, and also includes Unobtainium® nosepads and earsocks for a no-slip grip. Paired with Prizm™ Lens Technology or Oakley Authentic Prescription lenses, Oakley Plazma is a sport performance style with a fresh look.

009102 HOLBROOK™

Holbrook is a timeless, classic design fused with modern Oakley technology. Inspired by the screen heroes from the 1940s, 50s, and 60s, this design epitomizes the spirit of exploration and adventure. The iconic American frame design is accented by metal rivets and Oakley icons, perfect for those who seek equal parts performance and style.

009464 HSTN

Oakley® melds progressive design with heritage features in HSTN, a gender-neutral sunglass with striking modernized circular lenses. HSTN features Prizm™ Lens Technology and a modernized trigger stem (influenced by Oakley's Razor Blades, an homage to the brand's past). A lightweight and durable O-Matter™ frame helps provide all-day comfort and comes in two sizes for a more seamless fit. HSTN is available with Oakley Authentic Prescription lenses.

MOTO GP ATHLETE COLLECTION

Oakley® continues with the MotoGP Collection to celebrate the world's premier motorcycle racing event. Oakley celebrates some of the top names in the sport, including nine-time Grand Prix World Champion Valentino Rossi, eight-time Grand Prix World Champion Marc Marquez, former Moto3 World Champion Maverick Vinales, and six-time Spanish champion Fabio Quartararo, with their own namesake collections.

All three frames, which come with Prizm™ lenses that are designed to enhance color and contrast so you can see more detail, are inspired by the riders and their signature color accents. The eyewear also features the riders' personal logos etched into the lenses. Each sunglass comes with a custom microbag featuring the riders' personal logo.

OX8056 ADMISSION NEW

Admission is the newest member of Oakley®'s first-class collection of eyewear made specifically for gamers. Design highlights include thin temples for headset compatibility with minimal interference, and a durable, lightweight O-Matter™ frame to help provide comfort for all-day gaming. The Ace-Fit adjustable temples and TruBridge™ Sport Unobtainium® nose pads combine to help provide a customized fit and no-slip retention. Take your performance to the next level with Prizm™ Gaming, an Oakley Authentic Prescription lens that comes laser etched with the iconic ellipse logo for proof of authenticity and quality.
