- The Rates of Transmission only indicates averages and may vary based on prescription
- Base colors signify the general tint of the lens. Each Prizm lens has a unique base that enhances color and contrast specific for that environment

*Does not have an Iridium coating.

**Prizm Gaming 2.0 is only available in Plano for sunglasses

Oakley sun lenses help protect eyes against 100% of UVA & UVB light up to 400nm.

(1) Based on achieving the highest weighted composite score among main everyday photochromic lenses across measurements of key photochromic performance attributes weighted by their relative importance to consumers. The survey and analysis used to measure attribute relative importance was conducted by an external research agency in France, Italy, UK & US in 2019.

(2) The darkest in hot temperatures, in the car and offering the best overall blue violet light protection across light situations* among clear to extra dark photochromic lenses.*Protection from harmful blue violet light (380nm-460nm) among polycarbonate and 1.5 grey lenses: blocking (i) up to 34% indoors at 23°C, (ii) up to 64% behind the windshield (iii) up to 90% outdoors at 23°C and (iv) up to 83% outdoors at 35°C.

OW8002
OAKLEY META HSTN

We’ve reimaged one of Oakley’s most iconic silhouettes, HSTN, infusing it with cutting-edge tech while preserving its bold design language. Now equipped with discreet speakers and a camera, the frame delivers an elevated experience without sacrificing style.

Oakley Meta HSTN lets you listen to music while staying present in your environment, capture high resolution photos and videos hands-free, and share your perspective with effortless ease. Designed for seamless connection, both digital and real-world, it’s a fusion of form and function that keeps you plugged in without pulling you away.

ENCODER™ STRIKE VENTED

The best athletes in the world are constantly seeking an edge. That sentiment is what helped inspire the creation of Encoder Strike from Oakley®. Building on learnings from Team Oakley athletes, designers blended functional needs with heritage elements to create a frame that offers a premium solution for athletes seeking peak performance. The lens shape, enabled by PhysioMorphic Geometry™ and in a cut inspired by one of our heritage styles, Razor Blades, offers coverage and style. At the same time, the sunglasses’ ventilated design allows for optimal airflow. The frame is made of O Matter™ material to provide strength, comfort, and durability.

SPHAERA™ SLASH

Consider Sphaera™ Slash your permission to push past any limits. The result of decades of research with athletes, Sphaera Slash was designed with an alternative “slash” lens shape to help reduce cheek crash, and optimizes sport performance through a wide field of view and lightweight O Matter™ frame. The front vent on the frame provides enhanced airflow while Unobtainium® nose pads and molded-in earsocks deliver a no-slip grip for effortless wear with hats and helmets. To experience enhanced color and contrast everywhere you go, Prizm™ Lens Technology provides the details.

BXTR

BXTR pays homage to Baxter Street, a popular skate spot in Los Angeles where style and authenticity are always on display, just like this frame. The sunglass was developed by Oakley®’s team of designers who worked closely with friends of the brand in search of the next fresh take on lifestyle eyewear. In a nod to our heritage, BXTR features a shield design and a modernized trigger stem inspired by Oakley®’s original Razor Blade sunglasses, mixed with modern style to elevate individuality. The plant-based BiO-Matter™ frame material provides lightweight comfort and durability.

BXTR METAL

BXTR Metal pays homage to Baxter Street, a popular skate spot in Los Angeles where style and authenticity are always on display, just like this frame. The shield sunglass was developed by Oakley®’s team of designers who collaborated closely with friends of the brand to uncover a unique take on lifestyle eyewear. BXTR Metal’s modernized trigger stem is inspired by Oakley®’s original Razor Blade sunglasses. The frame is elevated with metal material in homage to the prototype for the first Oakley® sunglass – made from a goggle lens and wire coat hanger. The Bio-Matter™ frame material means all-day comfort and lightweight durability, while Unobtainium® nosepads provide increased grip.

HSTN

Culture never stops shifting and Oakley® continues to shift with it. HSTN is an evolution of the original sunglasses, first introduced by Oakley® in 2021. The original frame came to life after Oakley®’s team of designers worked closely with friends of the brand in search of the next fresh take on lifestyle eyewear. HSTN features the same progressive design and heritage features as the original, including striking modernized circular lenses and a modernized trigger stem. The frame features plant-based BiO-Matter™ material that helps provide the same all-day comfort Oakley® has long been known for, alongside Unobtanium® nose pads for unparalleled comfort and improved grip.

HSTN METAL

Oakley®’s HSTN Metal showcases the original frame’s progressive design and heritage features of the first generation of HSTN while being in a league of its own. The original frame came to life after Oakley®’s team of designers worked closely with friends of the brand in search of the next fresh take on lifestyle eyewear. The resulting sunglass with striking modernized circular lenses has now been evolved a step further with a wire trigger design. This special design pays homage to Eyeshade by replicating its unique aesthetic, originally created with a goggle lens and wire coat hanger. HSTN Metal also features Unobtainium® nosepads for the first time, providing unparalleled comfort and improved grip, while the BiO-Matter™ frame material gives the frame all-day durability.
