RAY-BAN | META GLASSES

Ray-Ban

GIVE PEOPLE THE CONFIDENCE TO LIVE IN
THE MOMENT AS THEIR TRUEST SELVES.

∞ Meta

GIVE PEOPLE THE POWER TO BUILD COMMUNITY
AND BRING THE WORLD CLOSER TOGETHER.

ICONIC STYLE MEETS META AI

In 2021 Ray-Ban Stories redefined the wearables category – from novel accessory to most-wanted fashion tech. The glasses introduced a new way to capture, share and listen, freeing users from their phone screens and allowing them to reconnect to the moment.

With the launch of the Ray-Ban Meta glasses (RBM) collection we continue building on the strength of a partnership that unites iconic style and legendary technology.

For this generation of Ray-Ban Meta glasses, every feature has been enhanced and streamlined so that customers can connect and share without limits. The frame weight has been reduced for easy, all-day wear.

LIVE FORWARDS WITH ICONIC STYLE

RAY-BAN META’S TARGET AUDIENCE CONSISTS OF TWO TYPES OF INTENDERS.

While these two groups are both defined by their fit with Ray-Ban Meta, they lead different lives and as a result, their interest in the glasses is shaped by different motivations.

- Priority 1 Intenders
Higher purchase intent and interest in technology.
Excited by RBM’s functional and emotional benefits:
what can this product accomplish for me and what
does it tell the world about who I am?
- Priority 2 Intenders
Lower purchase intent and interest in technology
Interested only in RBM’s functional benefits:
what can this product accomplish for me?

RAY-BAN META COMPANION APP

Set up and manage your glasses, import and share your photos and videos, and learn about new features

KEY FEATURES

LISTEN

Listen to music and more with discreet open-ear speakers that deliver rich, quality audio without blocking out conversations or the ambient noises around you.

LIVE

HANDS FREE COMMS

Send text or voice messages, make phone calls, and take video calls hands-free - all from your AI glasses. It's great for work calls on the go, sharing epic views while on vacation, or video calling your parents to make sure you're getting that family recipe just right.

“Hands free video calling available on WhatsApp, Messenger, and Instagram.”
“Calling on WhatsApp, Messenger, and Instagram may not be available in the UAE.”

CAPTURE

Capture what you see and hear hands-free with an upgraded ultrawide 12 MP camera and five-mic system. Just tap your glasses or say, “Hey Meta, take a photo.”

LIVE TRANSLATION

With live translation, you can have a conversation with real-time translations between French, Italian, Spanish and English, no wifi needed. Translations play back through the open ear speakers on your glasses and are viewable as a transcript on the Meta AI app.

META AI*

Ask questions about the world around you and Meta AI will deliver suggestions on the go. Learn the history of a landmark on your walk, translate a sign that’s in a different language, or get recipe suggestions based on what’s in your fridge, all using only your voice. Meta AI is available both as a chatbot and as an AI with video.

Certain Meta AI features only in select countries and languages. Please check local availability. Meta account and Meta companion app required. For ages 13+ only. *Calling on WhatsApp, Messenger, and Instagram may not be available in the UAE.

VOICE MESSAGING

Users can better express themselves as they can send, receive, and reply to messages with their actual voice on WhatsApp, Messenger, and Instagram hands-free. They can also play incoming voice messages over their glasses, hands free.

- Send: “Hey Meta, send a voice message to Mark on WhatsApp/Messenger/Instagram.”
- Receive: “Voice message from Pavan”
“Hey meta, play message”

Avoid pulling out your phone on the go while staying in touch with the people important to you. Sending and receiving voice messages with smart glasses unlocks expressive, authentic and efficient ways of staying connected with friends and family, all while being hands-free and in the moment.

Available in all RBM markets now. Users must connect their phone, WhatsApp, Messenger and/or Instagram accounts to send and receive text messages Voice messaging only available on WhatsApp, Messenger and Instagram.

* Voice features available in English, Italian, Spanish, and French.

POV/VIDEO CALLING

PoV Video calling lets you share your unique point of view with others in real-time on WhatsApp, Messenger, and Instagram video calls.

TEXT ACTIONS

Interact with text you see in the world. Engage with written text in new and helpful ways with Text Actions. When prompted, your glasses will analyze what you’re looking at, then extract and interpret the text or numbers within the scene. Call the number on a business card, summarize long text on a sign or turn the writing on a poster into a haiku. You can even translate text to the language of your choice or scan a QR code to get information about what it unlocks. It’s a simple tool that streamlines complex tasks.

Certain Meta AI features only in select countries and languages. Please check local availability.

LIVE AI

Converse naturally with Meta AI while it understands the context around you. Whether it's touring a new city, meal planning at the grocery store, or styling your wardrobe, Meta AI sees what you see to help you with your daily activities. Without wake words or pauses to take pictures for analysis, live AI's quick context-rich responses allow users to have more natural conversations.

— “Hey Meta, start live AI”

A live AI session will last about 30minutes on a full charge

*Only available in USA and Canada

REMINDERS

Save info on the go and remember details you see with Ray-Ban Meta.
Ask Meta AI to remember important information and tasks on the go and get reminded at the right time later. You can easily search information you’ve captured with Ray-Ban Meta with your voice at any time.
Ask Meta to capture information most important to you like,

- “Hey Meta, remember this parking spot number”
- “Hey Meta, remind me to buy this tomorrow”

Meta will capture a photo and extract the important information for you so you can stay hands free and in the know.

You can search your reminders at any time just by asking,

- “Hey Meta, search my reminders, what do I need to buy tomorrow?”
- “Hey Meta, what’s my parking spot number?”

Stay in the moment and capture all the information you need hands-free with Reminders on Ray-Ban Meta.

Certain Meta AI features only in select countries and languages. Please check local availability.

LIVE TRANSLATION

With live translation, you can have a conversation with someone who speaks another language and hear translations in real time between French, Italian, Spanish and English. Translations play back through the open ear speakers on your glasses and are viewable as a transcript on the Meta AI app. It's great for exploring a new country in a deeper way and connecting with new friends. To start, say

— “Hey Meta, start live translation”

or initiate directly from your companion app.

Live translation does not require network or internet connectivity. Simply download a language pack before you go and you can use it while traveling.

Certain Meta AI features only in select countries and languages. Please check local availability.

FAQ

1

HOW LONG DO FULLY CHARGED GLASSES LAST?

Up to four hours with a single charge and up to 36 hours with a fully charged case. A fully charged case has up to 32 hours of charge. The number of hours varies according to how you're using the features.

2

ARE MY RAY-BAN META GLASSES WATERPROOF?

Ray-Ban Meta glasses are IPX4 water resistant. IPX4 rating means your glasses are safe even if you get caught in light rain while wearing them. Simply remove the glasses as soon as you can, wipe them completely dry and you're good to go.

The Product is not designed to resist submersion or extended exposure to water or other liquids. In case of water exposure, dry the Product thoroughly and clear the charging areas of residue or other debris.

3

HOW DO I OPERATE THE CAMERA IN LOW LIGHT OR MOTION CONDITIONS?

The 12MP camera automatically adjusts to your environment for consistently high quality photo and video captures.

RAY-BAN | META STYLES

WAYFARER STYLE

An icon of style from Hollywood to hip-hop, the Wayfarer never stands still. Forever embraced by the next generation of culture makers, now its journey continues with AI-enhanced wearable tech. Ray-Ban Meta Wayfarer AI glasses enable you to live in the moment and share how you see the world. Listen, call, capture and livestream features are seamlessly integrated within the classic frame – so you can stay connected to the world around you.

SKYLER STYLE

Ray-Ban Meta Skyler AI glasses are designed to unlock new possibilities in how you see the world. The lightweight frame is integrated with AI-enhanced wearable tech, so you can listen, call, capture and livestream without disconnecting from what's happening around you. Drawing on our 60s archive and the Golden Age of air travel, the Skyler shape is inspired by an era of iconic jet-set style. Its wider front and gentle curves are designed to suit most faces.
